Compete in 2008

Formula Hybrid challenges college and university students to design, build, and race high-performance hybrid vehicles. Building on the Formula SAE program, Formula Hybrid adds an extra level of complexity: fuel efficiency.

With technological challenges for students with backgrounds in electrical, mechanical, and computer engineering, Formula Hybrid encourages interdisciplinary teamwork and innovation.

Formula Hybrid was founded at Thayer School of Engineering at Dartmouth College in 2005 and is endorsed by the IEEE and SAE International.
